RAC Warranty

Delivering Peace of Mind

Owning a car should be about enjoying the drive - not worrying about unexpected repair bills.

That's why we offer Platinum Plus, our most comprehensive extended warranty.

Consider for a moment;

- How important is reliability to you?
- How long do you plan to keep the car?
- Roughly how many miles do you expect to do each year?
- If something went wrong, would you want to pay repair costs yourself?
- Do you currently have breakdown cover?

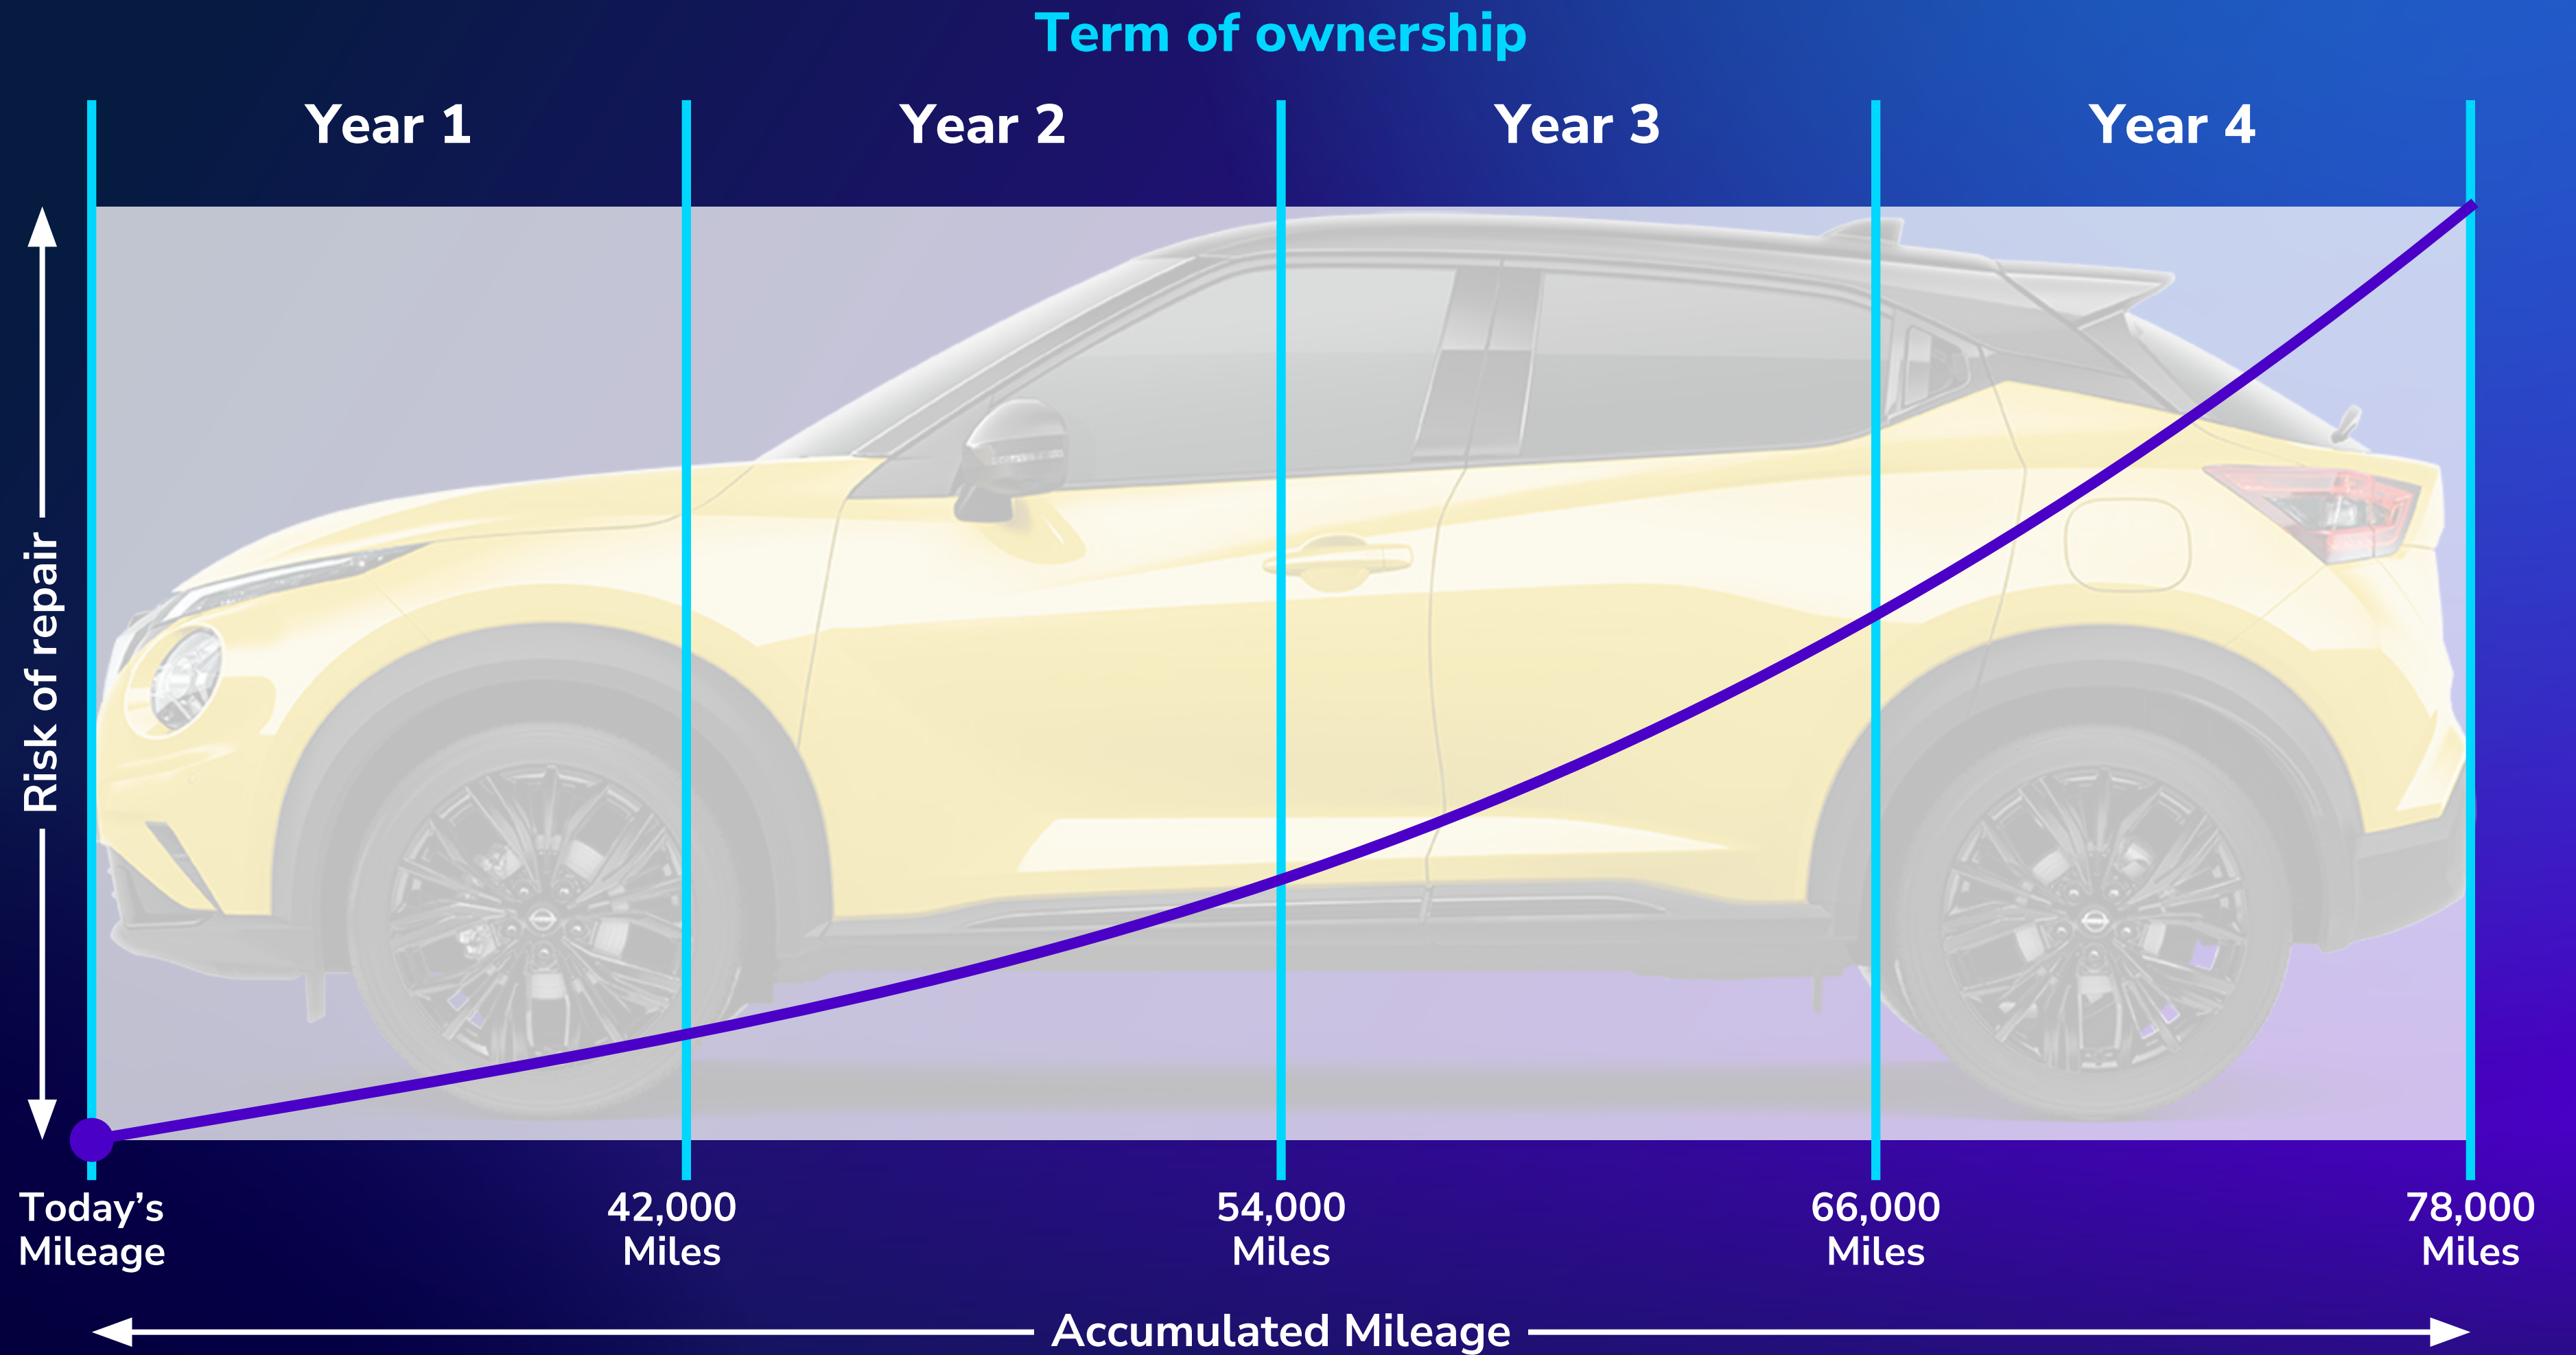

Repair risk increases over time

When a vehicle is newer and lower mileage, repairs are less likely.

But as time and mileage increase, the risk of unexpected mechanical or electrical issues rises too.

This is exactly when repair costs can become most inconvenient - and expensive.

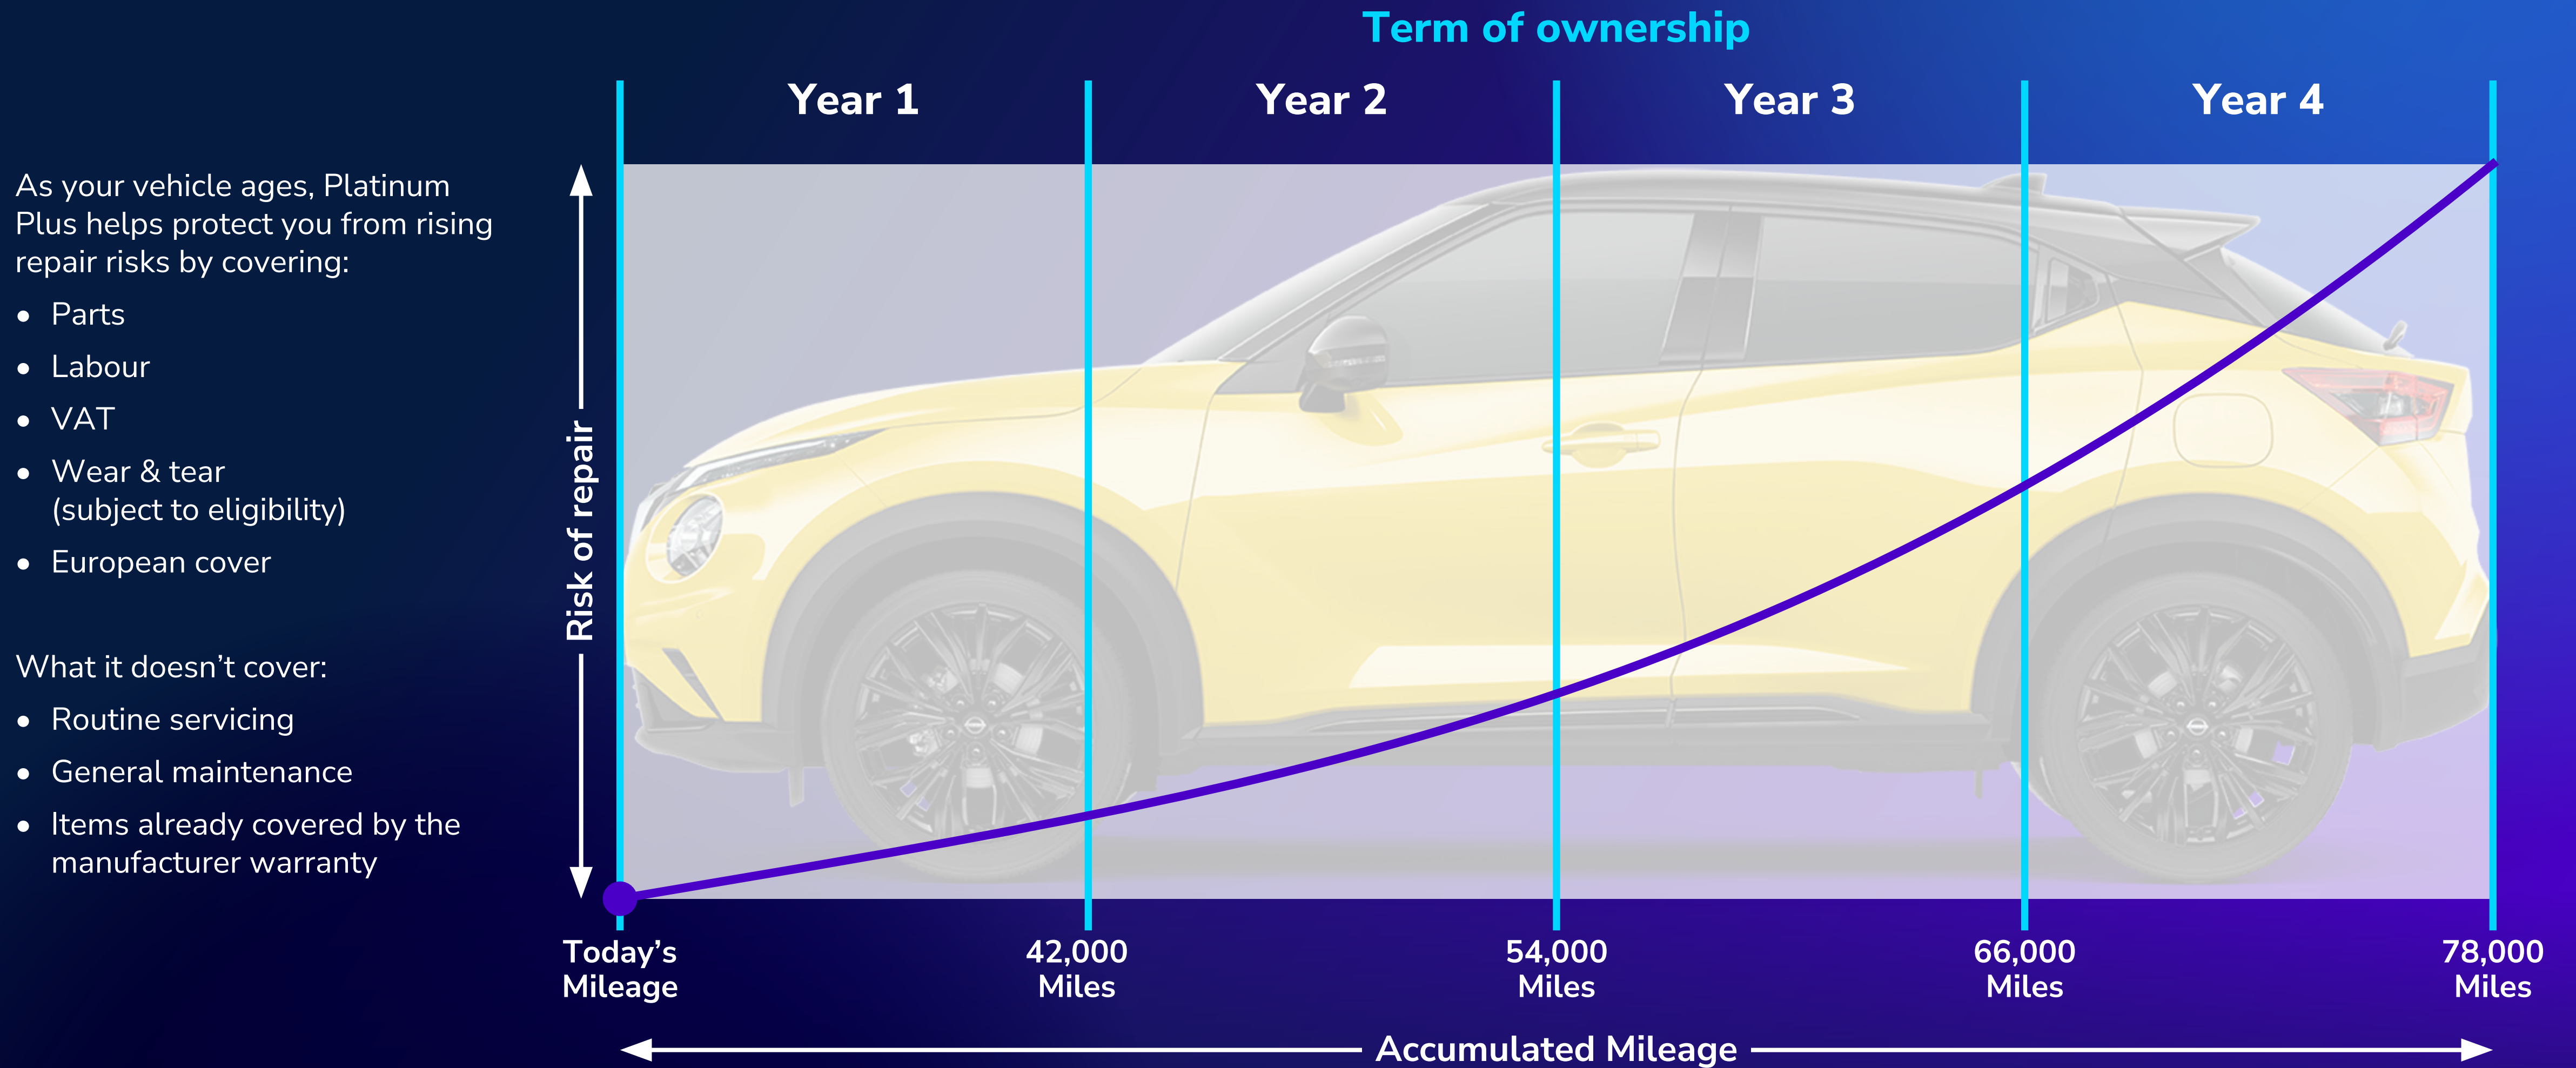

Data based on claims from warranties sold in 2025 on vehicles under 30,000 miles.
