FURTHER INFORMATION

INTRODUCTION

Whether you're looking for something small, sporty, or spacious Nissan's Motability range offers you plenty of options.

In this brochure you'll discover the prices for a wide choice of reliable, well-equipped vehicles – with a range of models available through Nissan's Motability Programme.

The price tables will help you decide which vehicles suit your finances. Simply select the model and transmission type that takes your interest and move along the table to the right. From here, you'll be able to see if an advance payment is required as well as how much of your DLA, PIP, AFIP, WPMS, CDP, ADP. Allowance your choice of car will use each month.

Whatever your lifestyle and budget, let us help you get behind the wheel of a brand new Nissan.

For more information, please get in touch with your Nissan Motability Specialist at a local Nissan Dealership: www.nissan.co.uk/dealer-locator

Good Condition Bonus

If you return your car in good condition, you could be eligible to receive the Good Condition Bonus from Motability Operations. The amount you receive depends on the length of the agreement: it's currently £600 for a three-year lease and £900 for a five-year lease.

New Vehicle Payment

Customers newly joining the Scheme during 2022 will receive the 'New Vehicle Payment' when they take delivery of their new car. This means if you take delivery of your first vehicle in 2022, or place an order during 2022, you will be eligible.

Anyone who is already a customer as of 31 December 2021 will become eligible for the payment when they take delivery of their next vehicle, whenever that may be.

To check the eligibility criteria for the Good Condition Bonus & The New vehicle Payment or for any further information on these topics, please refer to the Motability website [here](#)

NEW NISSAN JUKE HYBRID

New Nissan Juke Hybrid uses advanced technology which combines an electric motor with a petrol engine. Your ride is more responsive, quieter & powerful. Your trips are efficient with lower consumption vs Juke petrol engine*. e-Pedal step gives you the option of one pedal control, so you can actively accelerate & decelerate through the accelerator pedal. You'll only need to touch the brake when you decide to stop.

Key Features available from N-Connecta Grade:

- 17" Alloy Wheels
- NissanConnect 8" Touchscreen Entertainment System with Navigation, Apple CarPlay® & Google Android Auto®**
- 7" full colour TFT screen combimeter
- Front/Rear Parking Sensors and Rear View Camera
- Lane Departure Warning with Intelligent Lane Intervention***
- Intelligent Emergency Braking with Pedestrian & Cyclist Recognition***
- Intelligent Key, Start push button and electric hand brake with Auto Hold Function

The image displayed is the Nissan Juke Tekna+ Hybrid Model and may include additional features to those listed above.

*Hybrid N-Connecta – 5.1 L/100 KM (55.4mpg) compared to a Petrol N-Connecta 5.8 L/100KM (48.7mpg). WLTP figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. Actual real-world driving results may vary depending on factors such as weather conditions, driving styles, vehicle load or any accessories fitted after registration.

NEW NISSAN QASHQAI WITH e-POWER

The New Nissan Qashqai with e-POWER uses technology unique to Nissan. e-POWER uses a petrol engine to charge a battery and that alone drives an electric motor which powers the wheels.

The New Nissan Qashqai with e-POWER is ideal for urban driving and offers you a smoother, quieter and more fuel-efficient*, free from the need to charge.

Key Features available from Acenta Premium:

- e-Pedal Step Technology
- 18" Diamond Cut Alloy Wheels
- EV Mode
- Rear View Camera
- 8" NissanConnect with connected services including wired Apple CarPlay® & Android Auto®**
- Intelligent front emergency braking with pedestrian, cyclist & junction assist***

The image displayed is the New Nissan Qashqai Tekna+ e-POWER Model and may include additional features to those listed above.

*Compared to Qashqai Mild Hybrid

**Apple CarPlay® is a registered trademark of Apple Inc. Android is a trademark of Google LLC. NissanConnect with Apple CarPlay® and Android Auto® should only be used when it is safe to do so in accordance with the Highway Code. For compatible devices, visit <https://www.nissan.co.uk/ownership/nissan-infotainment-system/android-auto-apple-carplay.html>

***You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

For terms and conditions relating to Nissan technologies, please contact your Nissan dealer or www.Nissan.co.uk

NEW NISSAN QASHQAI WITH e-POWER

DISCOVER THE BENEFITS OF OWNING AN e-POWER

NO NEED TO CHARGE

e-POWER skips the initial hurdles some have with electric vehicles. Because the battery is kept full by the petrol engine, simply refill at an everyday pump and you'll be back on the road.

FEWER REFILLS, LOWER RUNNING COSTS

With an e-POWER vehicle, you can go much further on a full-tank because the petrol engine is only used to charge the more efficient electric battery. The battery is also partly recharged with energy produced while braking, meaning far fewer trips to the pump, and far more savings for the long-term*.

A MORE RELAXING WAY TO DRIVE

With the flick of a switch, you can activate e-Pedal Step: a single pedal for accelerating and braking. e-Pedal Step removes the need to jump between two pedals in stop-start traffic, or when driving uphill. Pair this with the quieter engine and you'll feel relaxed behind the wheel.

*Based on internal testing data, and are pending homologation. Compared to Qashqai Mild-Hybrid engine. Real world driving results may vary, depending on multiple factors such as optional equipment, battery condition, climate control, maintenance, driving behaviour and non-technical factors like weather conditions, actual route etc.

NEW NISSAN QASHQAI WITH e-POWER

HOW DOES IT ALL WORK?

FUELLED BY PETROL, DRIVEN BY ELECTRIC

Discover a new driving experience without changing your habits. Keep using fuel but enjoy the driving sensations of electric mobility as soon as you press the accelerator.

RECHARGES ON THE GO

You don't need to plug-in an e-POWER vehicle. The petrol engine produces energy that charges the battery when the vehicle needs it. The petrol engine produces energy that can either be directly supplied to the electric motor or to recharge the battery. The electric motor alone drives the vehicles wheels giving an electric feeling drive at all times.

RECYCLES ENERGY FROM BRAKING

e-POWER doesn't let all the energy usually lost through breaking, go to waste. The regenerative braking system on e-POWER converts kinetic energy from deceleration into electrical energy, and feeds it back to the battery, improving the fuel-efficiency*.

*Compared to Qashqai Mild Hybrid

HOW FAR CAN I GO

GO THE DISTANCE WITH NISSAN LEAF

LEAF

UP TO

168 MILES¹

FOR CITY DRIVING

NISSAN LEAF - AT HOME IN THE CITY

With up to 150PS² of 100% electric power, plus e-Pedal and ProPILOT Assist³ technologies

Nissan LEAF is ideal for everyday commutes and trips around town.

¹WLTP figures shown are for comparability purposes. Actual real-world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

²Figures quoted for 39 kWh (LEAF) batteries. Indicated charging time based on starting charge of 20% and use of a CHAdeMO (50KW) rapid charger. Time may vary depending on charging conditions including charger type and condition, battery temperature and ambient temperature at point of use. The Nissan LEAF is designed to support the majority of journeys in daily life and is equipped with charging safeguards to protect the battery during repeated rapid charging sessions in a short period of time. The time taken for successive rapid charging can take longer if the battery temperature activates the battery safeguarding technology.

³ProPILOT Assist is standard on Tekna and optional from N-Connecta grades. You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply. ProPILOT Assist is an Advanced Driver Assistance technology but cannot prevent collisions. ProPILOT Assist is intended for "Eyes on/ Hands On" for motorways only (road separated by Barriers). It is the driver's responsibility to stay alert, drive safely and be able to take control of the vehicle at any time. For terms and conditions relating to Nissan technologies, please [click here](#).

EASY CHARGING, HOWEVER SUITS YOU BEST

There are several ways to charge your Nissan LEAF. At home or on the go? A wide network of public charging stations also offer Type 2, while an increasing number offer 50 kW CHAdeMO capability.

Nissan LEAF Savings and Benefits [here](#)

HOW DO YOU CHARGE THE NISSAN LEAF?

With a large choice of charging modes from a domestic plug to public chargers, Nissan LEAF adapts to your life, your rhythm and the way you drive.

CHARGE VIA A DOMESTIC SOCKET The Nissan LEAF comes standard with a 6 metre type 2 Charging cable, you can upgrade to the EVSE 3-Pin Charging cable at an additional cost of £295 Inc. VAT. You can plug your car into the most convenient domestic socket for easy top up overnight.

MOTABILITY OPERATIONS OFFER A FREE CHARGING SOLUTION FOR ELECTRIC VEHICLE DRIVERS When placing your application with your dealer, say yes to be contacted by a charger supplier. You'll then be contacted by the supplier directly who will arrange the provision of a charging solution.

For more information on the Motability Operations offer of a charging solution (Terms & Conditions may apply) Please Click [here](#)

CHARGE ON THE GO

PUBLIC CHARGING STATIONS

There's an ever growing network of public charging stations where you can top up your Nissan LEAF on the go. They are along major roads, in petrol stations and in several "public buildings". Just plot your itinerary on the map and choose the most convenient one for the journey.

LEAF FAVOURITE CHARGING STATIONS

As of 2019, over 160.000 charging points exist across Europe including almost 10.000 QC with CHAdeMO protocol. Today, one new Quick Charger opens every day in Europe*.

*European Alternative Fuels Observatory

EXTEND YOUR RANGE

Nissan LEAF offers you two driving modes designed to extend your range and make the most of the all-electric driving experience.

B MODE: RECOVER BRAKING ENERGY

Serious about maxing out your range? Activate B Mode. It delivers more regenerative braking, which charges the battery without compromising on driving power.

ECO MODE

Choose ECO Mode to limit engine output and save energy. It slightly increases regenerative braking to boost your range, too. To get the most mileage out of your Nissan LEAF, use B mode and ECO mode at the same time.

NISSAN ARIYA

Experience a force of wonder: Enter the new era of 100% electric coupé crossover performance, design, and capability – and now being offered for Motability customers.

The new Nissan ARIYA uses breakthrough Nissan technologies to help you with the more demanding parts of the drive so you can arrive feeling more at ease. Driver assist technologies can help to give you different levels of control.*

The ARIYA 63kWh Advance offers up to 250 miles** from every charge of its 63kWh usable capacity battery. With technology that plugs into your senses, chances are, you've never experienced something quite like the ARIYA.

Key features available on the Advance grade:

- Free ZapMap subscription
- 130kW DC CCS Charging Rate
- Automatic Dual Zone Climate Control
- 19" Alloy Wheels with Aero Covers
- ProPILOT Assist with Navi-Link*
- 12.3" TFT Screen with 12.3" Navigation Screen
- 360° Around View Monitor with Moving Object Detection*

The image displayed is for illustrative purposes and may include additional features not available on the grade listed above.

*It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. Driver assist features have speed and other limitations and should not be solely relied on. For more information, please refer to the owner's manual or visit www.nissan.co.uk/techterms.

**WLTP Figures shown are for comparability purposes. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

START WITH THE PERFECT FIT

ARIYA

63kWh ADVANCE

The first choice for commuters with a family that crave weekend adventure with less need for regular long journeys. Coupe-Crossover style with front wheel drive, 160kW/217PS and 300Nm torque, 100mph top speed and delivering up to 250 miles range*.

*WLTP figures shown are for comparability purposes. Actual real-world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

CHARGE AHEAD

Keep the energy high and the expectations higher. Explore up to 250 miles* on a single charge. It's possible to charge your Nissan ARIYA with a variety of different methods. Whilst you're on the go, there is a wide network of public charging stations that offer Type 2 AC charging, or you can utilise ARIYA's 130kW DC CCS Charging Rate to charge your battery from 10% to 80% in just 30 minutes**.

22KW CHARGER OPTION

The 22kW AC Charger, additional cost option on the Nissan ARIYA unlocks faster AC charging via its type 2 socket versus the standard 7.4kW AC charger found on the 63kWh Advance. This faster charger can cut the time of a full charge from circa 11hrs to 4hrs - almost three times quicker. However, to enable this faster charging rate, a 22kW charger requires a 3-phase energy supply.

For public charging, 22kW-capable AC charging stations are growing at a rapid rate, and are becoming more widespread. Buying the 22kW cost option onboard AC charger would unlock this faster charging potential in the public charging network.

For domestic use however, very few residential properties have 3-phase supply. To get 22kW charging at a home residence, significant investment would be required in installation. If a property does not have this 3-phase supply, then regardless of whether an ARIYA is fitted with the 22kW onboard charger cost option, it will only charge at a maximum of 7.4kW rate.

MOTABILITY OPERATIONS OFFER A FREE CHARGING SOLUTION FOR ELECTRIC VEHICLE DRIVERS

When placing your application with your dealer, say yes to be contacted by a charger supplier. You'll then be contacted by the supplier directly who will arrange the provision of a charging solution.

For more information on the Motability Operations offer of a charging solution (Terms & Conditions may apply) Please Click [here](#)

*WLTP figures shown are for comparability purposes. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

**Information is indicative of the ARIYA 63kWh Advance. Indicated rapid charging time requires use of a CCS rapid charger (Up to 130kW) and may vary depending on factors including charging conditions, battery, and ambient temperature at point of use and if the battery safeguarding technology is activated. Visit [nissan.co.uk](https://www.nissan.co.uk) to find out more.

CHARGE ON THE GO

PUBLIC CHARGING STATIONS

There's an ever growing network of public charging stations where you can top up your Nissan ARIYA on the go. They are along major roads, in petrol stations and in several "public buildings". Just plot your itinerary on the map and choose the most convenient one for the journey.

CHARGE AHEAD

As of May 2022, there are over 52,000 charging connectors across the United Kingdom, including over 6,000 rapid chargers delivering over 25kW.

*Information sourced from zap-map.com, May 2022

ELECTRIFY YOUR DRIVE

E-PEDAL STEP

Utilise the one pedal driving experience with Nissan's e-Pedal Step*. Standard on the 63kWh Advance, e-Pedal Step allows you to accelerate and brake, simply with accelerator. Once you try it, you won't want to go back!

NISSAN INTELLIGENT MOBILITY

As the halo for the NIM platform, the ARIYA comes equipped with a suite of safety features designed to work to try to keep you as safe as can be. From the Intelligent Around View Monitor to Intelligent Blind Spot Intervention, you can see how the car can help to ease your journeys.*

*It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. E-Pedal Step may require driver intervention in aggressive braking scenarios. Driver assist features have speed and other limitations and should not be solely relied on. For more information, please refer to the owner's manual or visit www.nissan.co.uk/techterms.

FURTHER INFORMATION

The Nissan Motability Programme developed in association with the registered charity Motability helps you move through life with more confidence.

Terms & Conditions:

Nissan reserves the right to amend or withdraw offers at any time without prior notice, including in the case of any events or circumstances beyond Nissan's reasonable control.

- 1) Advance Payment offer valid for Motability applications from 1st October 2022 to 31st December 2022 at participating dealers and subject to vehicle availability.
- 2) Advance Payment varies according to model grade. For more information on full range Advance Payment, please refer to the Nissan Motability Price List (Prices effective from 1st October 2022 to 31st December 2022).
- 3) Motability vehicles available at a fixed weekly cost for the duration of your 3 year lease agreement. Where your weekly cost is less than your Motability total allowance, the difference will be paid directly to you by the Department for Work and Pensions (DWP) or Veterans UK depending on which allowance you receive.
- 4) Motability customers agree to pay all or part of the Motability Allowance (DLA, PIP, AFIP, WPMS, CDP or ADP (Scotland)) depending upon the vehicle chosen for the duration of the 3 year lease agreement.

For further information and details on the full range, please email your local Nissan Motability Accredited Dealer.

Images and descriptions shown are for guidance purposes. In some instances photos are of non-UK specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.

Nissan. Innovation that excites.
