

BMW BIKES.

For more than 70 years of bike history, BMW has been impressive with its high-quality and innovative models. The BMW Bike Generation IV, which was developed in cooperation with Designworks, continues this success story.

New to BMW Bikes are the high-quality 3T for BMW Gravelbikes. They were developed in collaboration with the Italian brand 3T and are available in two exclusive colour designs. These aerodynamically designed bikes stand out thanks to first-class technical equipment and state-of-the-art racing components.

All other BMW Bikes are still available.

Number of new collection items: 7.

Number of existing collection items: 14.

Update 02/2021

BMW BIKES. DESIGN PHILOSOPHY.

Update 2021

Special themes of the collection:

BMW collaboration with 3T.

The collaboration with the Italian brand 3T sets standards. The gravel bike stands out thanks to its precise, minimalist design and state-of-the-art racing components. Clear lines and contours as well as the modern colouring make this bike unique.

The BMW M Bike.

The material mix of aluminium and carbon analogous to the BMW M vehicles gives this bike its sportiness. Due to the carbon fork specially developed for the bike, the weight of the bike could be reduced by a kilogram.

The BMW E-Bikes.

Stylish, clear form meets high tech: The BMW Active Hybrid E-Bike and the BMW Urban Hybrid E-Bike feature powerful drive units that blend seamlessly into the slim frame. Both E-Bikes are equipped with an innovative LED battery-charge indicator.

The BMW Cruise Bikes.

The unmistakable design inspired by the fixie trend and the high-quality components of the BMW Cruise Bike create the unique BMW experience even when biking.

DESIGN AND FUNCTION.

What we know from BMW vehicles can also be found in BMW Bikes. They enthuse riders not only with pure driving pleasure, but also with first-class design and innovative functionalities. The modern colour scheme, the linear frame shape with discreet BMW branding give the BMW Bikes an unmistakable urban look. The collaboration with 3T perfects the combination of unique design and innovative components.

BMW BIKES.

New from spring 2020.

3T FOR BMW GRAVELBIKE

The Gravelbike as an exclusive edition for BMW, created in collaboration with the traditional Italian company 3T.
